## HYDE PARK CODE

## NOTES

Refer to § 108-4.4 for further detail.
Scale. Scale limits the gross square feet of a proposed use or structure. Scale limits do not apply to one- and two-family residential use, animal husbandry, or agriculture use. The density limits noted herein shall include accessory apartments. The coverage limits noted herein shall be the maximum for all uses permitted on one lot.
Yard requirements: Such minimums shall be parallel to the applicable lot line for the full length thereof.
Landing: Any lot fronting on the Hudson River shall be permitted to construct water-dependent structures into the river, provided that U.S. Army Corps of Engineers approvals are obtained.
${ }^{1}$ On a corner lot, there shall be provided a side yard on the side street equal in depth to the required front yard in said district.
${ }^{2}$ Accessory structures, other than fences or walls, with a maximum height of 15 feet may be placed on a lot, provided the setback is no less than the setback required for any building for the front yard and no less than one-half the setback required for any building for the rear and side yards with a minimum setback of five feet. This does not apply to an accessory structure that contains a dwelling unit. An accessory structure that contains a dwelling unit must comply with the bulk requirements for the principal structure.
${ }^{3}$ In the Greenbelt and Waterfront Districts, when calculating the density of acreage for a given parcel, all Federal Army Corps of Engineers and NYS DECregulated wetlands proper as well as lands within the one-hundred-year flood hazard area shall be excluded from the total parcel acreage calculation. Where the resulting residual acreage is equal to or less than 10.0 acres, minimum average density shall be calculated on the basis of $2.0 \mathrm{~A} / \mathrm{DU}$ for this residual acreage. Where the resulting residual acreage is more than 10.0 acres, the minimum average density shall be calculated on the basis of $2.5 \mathrm{~A} / \mathrm{DU}$ for this residual acreage.
${ }^{4}$ Townhouse. A zero-foot side yard setback is permitted for the side yard bordered by another attached dwelling unit.
${ }^{5}$ Front yard in the CC zoning district. The front and side yards may be reduced to 0 feet, subject to the CC standards.
${ }^{6}$ For solar farms approved pursuant to $\S 130-8$ of the Town Code, the maximum impervious coverage shall be $25 \%$ instead of $15 \%$ as listed in the schedule.
